MY EXPERIENCE OF LIVING IN A POLYGAMOUS HOME

My experience living in a polygamous home was terrible and difficult. My father didn't care about me and my mom, favoring the other two wives and his drinking lifestyle. This was due to false accusations by the other wives that my mom stole money from my dad's bag, when in fact they were the ones who took it. They deceived my dad with fake love, prioritizing his money over genuine affection. My mom cherished my dad, but the false accusations made him hate her and me. He stopped paying my school fees, causing hatred, jealousy, and division in our home. Despite this, I've learned a valuable lesson: don't judge a book by its cover. This experience taught me to look beyond appearances and consider multiple perspectives. It's a lesson that has helped me succeed in life, and one that I'll carry with me.
